SUMMARY:

Passionate Computer Engineering student with expertise in Python, Machine Learning, FastAPI, and Cloud Containerization. Strong foundation in NLP, Sentence-BERT, and Full-Stack development.

SKILLS:

? Programming: Python, Java, SQL, C++, JavaScript, TypeScript

? AI / ML: Machine Learning, NLP, Sentence Transformers, scikit-learn, PyTorch, Pandas, NumPy, TF-IDF

? Web & Frameworks: FastAPI, React, Node.js, REST API, HTML/CSS

? DevOps & Cloud: Docker, Kubernetes, Linux, Git, GitHub Actions, AWS

EDUCATION:

B.Tech Computer Engineering - Senior Year

Relevant Coursework: Data Structures & Algorithms, Machine Learning, Database Management Systems, NLP.

EXPERIENCE:

Machine Learning & Software Developer Intern (2023 - Present)

? Designed and developed AI-powered ATS resume screening system utilizing Sentence-BERT embeddings, PyMuPDF, and FastAPI.

? Integrated Docker multi-stage containerization and automated Jenkins CI/CD testing pipelines.

PROJECTS:

1. AI Resume ATS (GitHub: <https://github.com/swapnilsupe01/ai-resume-ats>):

Built an intelligent Explainable Resume Screening System using Python, FastAPI, Sentence Transformers, PyMuPDF, scikit-learn, and Docker. Implemented skill-level semantic matching and public project evidence verification.

2. Smart Hospital Management App (GitHub: <https://github.com/swapnilsupe01/smart-hospital>):

Developed a full-stack health platform using FastAPI, React, and PostgreSQL database. Containerized with Docker Compose.

CERTIFICATIONS:

? Machine Learning Specialization by DeepLearning.AI

? Python Developer Professional Certificate

? Docker & Containerization Fundamentals
