PROFILE

Computer Engineering student with hands-on experience in software development, ERP systems, cybersecurity, ISO 27001 compliance, AI/ML and cloud deployment. Experienced in enterprise applications, REST APIs and deployment. Interested in technology consulting and technology transformation.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, Dart, SQL

Databases: Firebase, Supabase, ChromaDB

Tools: OWASP Juice Shop, Selenium, Docker, Docker Compose, Nginx, Git, GitHub, YOLOv8

Frontend: React.js, Vite, Tailwind CSS, FastAPI, Node.js, Flask, Scikit-learn, TensorFlow, PyTorch, XGBoost, LangChain, OpenCV

Cloud / DevOps: FastPanel, Google

Other: Nuclei, WhatWeb

PROJECTS

NodeNarrate

- * AI LangGraph Visual Debugger

Python, LangGraph, FastAPI, React, Vite, Docker

- * Built an open-source visual debugging and execution-tracing tool for LangGraph agents with step-by-step graph execution, state and latency
- * Developed a Python SDK with callback tracing, HTML/JSON trace export and a React interactive visualization studio.
- * Implemented isolated FastAPI sandbox execution and deployed the full-stack application with Docker on Hugging Face Spaces.

ISO Audit AI

- * AI-Powered ISO Audit Gap Analysis Platform

React, Vite, FastAPI, Python, Gemini API, RAG, ChromaDB, Sentence Transformers, Docker, Nginx

- * Built an AI-powered platform for ISO audit gap analysis using RAG and Google Gemini API.
- * Implemented semantic document retrieval with ChromaDB and Sentence Transformers.
- * Developed FastAPI REST APIs and automated PDF/Excel audit report generation containerized with Docker, Compose and Nginx.

JuiceScanner AI

- * Cybersecurity Orchestration & Vulnerability Engine

React, FastAPI, Python, Ollama, Llama 3.2, Docker, OWASP Juice Shop

- * Developed a full-stack vulnerability scanning and intelligence platform for OWASP Juice Shop.
- * Added AI-based vulnerability analysis, risk scoring and remediation guidance.

Resume ATS

- * Intelligent Resume Analyzer

Python, FastAPI, Uvicorn, PyMuPDF, scikit-learn, NLTK, spaCy, Sentence Transformers

- * Built a full-stack ATS application analyzing resumes against job descriptions using NLP and machine learning.
- * Implemented skill-gap analysis, matched/missing skill detection and actionable resume recommendations.
- * Developed an ATS scoring engine combining skill matching, semantic similarity, N-gram/TF-IDF analysis and section structure.

EXPERIENCE

Team Lead & Full Stack Developer Intern - MokBuzz Solution Pvt. Ltd.

- * Led end-to-end development of a MERN-stack ERP and ISO
- * Developed a cloud-based ISO compliance platform supporting ISO
- * Redesigned UI and optimized backend queries/APIs, improving
- * Built REST APIs for reliable frontend - SQL data flow across ERP and
- * Managed FastPanel deployment including server configuration,

EDUCATION

Vidyalankar Institute of Technology, Mumbai - B.Tech Computer Engineering | 8.5 CGPA | 2024-2027

Bharati Vidyapeeth Institute of Technology, Kharghar - Diploma Computer Technology | 83.83% | 2022-2024

HSC - 46.31%

SSC - 70.55%

CERTIFICATIONS: I. Programming in Java II. C-DAC - I. NPTEL (Jan - Apr 2024)

HOBBIES: Cricket, Badminton, SWAPNIL SUPE.
